# LUXURY BIRTHDAY MAGAZINE

Complete prompt for Claude — interactive birthday experience

## EXACT COLOR PALETTE

| COLOR | HEX | USE |
|---|---|---|
| Vintage Cream | #F3E8D8 | Main background |
| Warm Paper | #E8D5C0 | Secondary sections |
| Deep Espresso Brown | #5B3828 | Main accent |
| Almost Black | #171514 | Dramatic sections / text |
| Soft Blush | #D9A39A | Romantic accents |
| Champagne Gold | #C8A46A | Borders / highlights / luxury details |
| Soft White | #FFF9F2 | Text on dark sections |

## CORE CONCEPT

Create a beautiful, romantic, cinematic interactive birthday website for a girl I deeply care about. It should feel like a luxury birthday magazine + digital love letter + music experience, not a normal birthday website. The overall aesthetic should be old-money luxury + vintage magazine + feminine romance + cinematic birthday surprise.

## OPENING EXPERIENCE

Start with a dark espresso screen. Show “SPECIAL EDITION”, then slowly reveal “HER DAY. HER STORY.” and “A little world created just for her.” Add “OPEN HER EDITION ✦”. On click, transition smoothly into the magazine with subtle particles and champagne-gold stars.

## MAIN MAGAZINE COVER

Create a realistic editorial magazine cover inspired by the reference image: “BREAKING NEWS”, elegant script “It’s the queen’s”, then huge “BIRTHDAY!”. Place the birthday girl’s uploaded photograph prominently. Add “SPECIAL BIRTHDAY EDITION” and an editorial-style birthday story. Include a small “TODAY’S FORECAST” box with cake, smiles, memories and being spoiled. Finish with her name and “THE BIRTHDAY QUEEN”.

## PHOTO UPLOAD

Provide an obvious, beautiful photo-upload area. Let me upload her picture, crop it elegantly, and automatically place it inside the magazine cover. Do not destroy the original image.

## PERSONAL MESSAGE

Create a section titled “A LETTER FROM ME”. Give me editable fields for Her Name, Your Name and a long Birthday Message. The typed message must appear beautifully formatted like a handwritten letter. Do not hard-code my personal message.

## MUSIC EXPERIENCE

Create “A SONG FOR HER” with a vintage spinning vinyl record. Let me upload an audio file locally. Show Now Playing: [Song Name], play/pause, volume and progress. Animate the record while playing. Do not use an external

music API.

## FALLING HEARTS

Add elegant falling hearts, not childish emoji hearts. Use tiny cream, champagne-gold and soft-blush hearts plus sparkles. Include a toggle called “■ Let the love fall” to turn the effect on/off.

## HER STORY

Create a magazine spread titled “THE WOMAN BEHIND THE HEADLINE” with editable sections: HER HEART, HER BEAUTY and HER SOUL. Each should allow me to write personal descriptions.

## MEMORY GALLERY

Create “MOMENTS WORTH REMEMBERING” with multiple photo-upload boxes. Each photo should look like a luxury editorial photograph and have an editable caption. Make the gallery feel like real magazine pages.

## THINGS I LOVE ABOUT YOU

Create interactive numbered cards such as 01 Your smile, 02 Your heart, 03 Your strength, 04 Your laugh, 05 Your kindness, 06 The way you make people feel, 07 Your dreams, 08 The woman you’re becoming. Every item must be editable. Clicking a card expands its message.

## BIRTHDAY WISHES

Create a dark luxury section titled “A WISH FOR YOUR NEW CHAPTER”. Provide a large editable text box for my birthday prayer/wish. Use subtle stars and gold typography.

## FINAL SURPRISE

End with a closed elegant envelope and “ONE LAST THING…”. Add “OPEN YOUR SURPRISE ✥”. When clicked: open the envelope, reveal a glow, release champagne-gold confetti, activate falling hearts and stars, and start the uploaded song if available. Reveal “HAPPY BIRTHDAY, [HER NAME]” and the final personal message. This must be the emotional climax.

## TYPOGRAPHY

Use a combination of elegant high-fashion serif typography, beautiful handwritten/script typography and strong editorial newspaper typography. Make the hierarchy dramatic and premium.

## MICRO-ANIMATIONS

Use smooth page transitions, magazine page-turn effects, subtle image zoom, gold button shimmer, floating hearts, falling petals, glowing stars, letter-by-letter text, smooth scrolling, photo reveals, vinyl rotation, envelope opening and final confetti. Keep everything sophisticated and cinematic, never childish.

## MOBILE EXPERIENCE

The website must be beautiful on phones because the recipient will likely open it on a phone. Keep photos, text, buttons, music controls and animations responsive and easy to use.

## PERSONALIZATION PANEL

Create a hidden “✥ PERSONALIZE” panel. Allow me to enter the birthday girl’s name, my name, main birthday message, letter, birthday prayer/wish, favorite song, multiple photos, memory captions, things I love about her and

final surprise message. Everything should update live without editing source code.

## PRESS PLAY MOMENT

Add an optional opening moment: “PRESS PLAY BEFORE YOU CONTINUE ■”. The user can put on headphones, start her song, and then watch the magazine slowly open. This should feel like an experience, not merely a webpage.

## FINAL QUALITY BAR

The first cover should capture the reference image’s cream paper, vintage newspaper layout, elegant black typography, handwritten brown script, warm photography, editorial columns and subtle paper texture — but improve it into a luxury birthday publication designed specifically for one woman. The desired reaction is: “WAIT… YOU MADE ALL OF THIS FOR ME?” Make it personal, expensive, romantic, emotional and unforgettable.

## TECHNICAL REQUIREMENTS

Build a polished, fully functional, self-contained HTML/CSS/JavaScript website. No external APIs. Make all animations smooth and performant. Support local image and audio uploads. Keep the design responsive and accessible. Do not make the user edit source code just to personalize the birthday.

## THE FEELING TO ACHIEVE

**A magazine about her.**
A letter from me.
A song for her.
A collection of our memories.
And a little universe celebrating her existence.
